RESPONSE TO AMENDMENT

1. This communication is responsive to the amendment received on March 19, 2007.

Claims 1-27 have been cancelled.

Claims 28-50 have been newly added.

Claims 28-50 are pending.

Election/Restriction

2. Restriction to one of the following is required under 35 U.S.C. 121:
 - I. Claims 28-50 are drawn to a method of request processing using client profile pattern matching classified in 707, subclass 6.
 - II. Original claims 1-27 are drawn to a client/server communication system of classified in 709, subclass 203.

The inventions are distinct, each from the other because of the following reasons:

Subcombination-Usable Together

3. Inventions I, and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as pattern matching. Invention II has separate utility such as client/server communication. See MPEP § 806.05(d).
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
6. Newly submitted claims 28-50 are directed to an invention that is independent or distinct from the invention originally claimed for the reasons above.

Since applicant has received an action on the merits for the originally presented invention (original claims 1-27), this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 28-50 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Amendment

7. The reply filed on March 19, 2007 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): No claims to examine and the remarks are directed to the newly added claims that have been withdrawn from consideration by Restriction/Election by original presentation. See 37 CFR 1.111.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 2155

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
